

NAVIGATE NEWS

April 2022

Happy April to our Navigate users. It has been a busy semester for everybody, and I am sure all of us are ramping up for orientation season and getting ready to welcome a new class to the Mean Green Family.

A huge thanks to everybody for all of the hard work you've put in to student success this semester via Navigate. Students are struggling in new ways and this has pushed us to think differently in higher education about how we serve students and create a network of coordinated care. I believe Navigate can help with some of these gaps and we are constantly working hard to get this system to meet our needs and the needs of our students.

To ensure we are utilizing this system the best we can, we have a few new announcements to make.

- We are excited to launch Phase I of our new training website at navigate.unt.edu. The Canvas site will continue to be available in the near future, but this new page should provide more accessible and up-to-date answers and references as we evolve. Learn more on the next page!
- We are also starting a Navigate Features series this spring and summer. It is easy to get caught up in our daily operations, so some of the finer features of Navigate can get lost. Keep your eyes out for Features trainings on some of our more advanced tools in Navigate.
- Finally, we will also be launching some required trainings in a partnership with UBSC to ensure our student communications are effective and meet the university standards. Stay tuned for more!

Read below to learn about some of our successes and future launches and find upcoming training dates. Thank you for everything you do, and please reach out if I can do anything to help you better utilize the system as we wrap up this year and prepare for fall 2022.

Happy Navigating!

Welcome to the Navigate Team, Ja'Meriya!

My name is Ja'Meriya (Jah-MAIR-ee-AH). I became a part of the Mean Green family in 2016 when I began my undergraduate degree; finishing in 2020 with a Bachelor of Arts in Psychology and a certificate in Substance Use Disorder Treatment. During my time at UNT, I've been heavily involved on campus. It is through my leadership roles in UNT's chapter of the National Association for the Advancement of Colored People, the Student Government Association, the University Program Council, and more that I've learned and developed my passion for service and social work. I am currently a second-year graduate student in the Rehabilitation Counseling program, looking forward to a future career in social services. I am excited to join the Navigate team this semester and to have the opportunity to assist in improving student success at UNT through this innovative platform.

NEW & UPCOMING CHANGES

New Training Site

While the Canvas site will stay active until we are ready to deactivate it, we have launched some of our most important training references at navigate.unt.edu/training.

Here, you'll find live training options, learn how to request personalized trainings, and have access to short how-to videos and instructions for the many features of Navigate (including full captions).

We encourage you to check this out regularly. Our Canvas site is already becoming slightly outdated due to new releases, so this site will include updated information and hopefully be easier to access for our several hundred users.

This transition will be slow, so please be patient as we develop the new site. Canvas will remain available until it is no longer needed and as always, please feel free to contact the Navigate Team directly so we can help you find what you're looking for or offer you personalized trainings.

Intake Survey Update

We have expanded the Intake Survey reference page on navigate.unt.edu to continue to keep you informed of what we're asking students and how that information can be used.

Find this information at navigate.unt.edu/intake-survey, now linked under the Staff tab on the homepage.

New results will start being collected at the conclusion of the spring, and the leadership-approved adjustments to the survey will be available for your reference on our website when it goes live at the end of April.

A brand new training video all about the intake survey will be available on the website on April 15th.

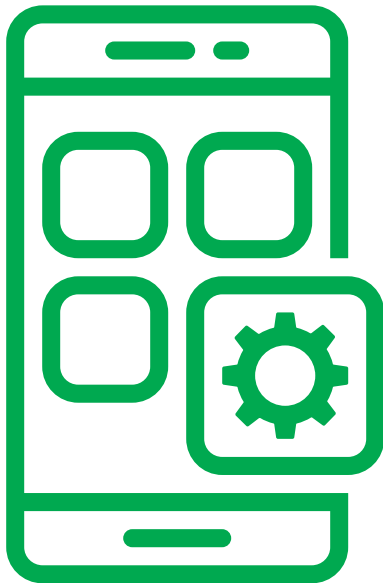

UPCOMING TRAINING

FOCUSED FEATURE: ADVANCED SEARCH AND STUDENT LISTS

Our first Focused Feature training will focus on the advanced search feature in Navigate. This is a widely used tool, but there are likely a number of filters and subsequent actions you can take from the search that may be less well-known. This training is recommended for ALL users to get a better understanding of the filters in the advanced search area, saving lists and searches, uploading lists, scheduled reports, and other ways you can better identify students and provide outreach.

- Monday, April 25 3:00-4:00pm
- Thursday, April 28 11:00am-12:00pm
- Tuesday, May 10 9:00-10:00am

Limited Time Only

STUDENT APP CONTENT & ANALYTICS

Recommended for advising leadership, Student Affairs staff, program coordinators, and anybody else interested in learning more about how the Student side of Navigate works, how to submit content to be distributed through the app, and what app-use and student-reported data analytics you can pull from the platform.

- Wednesday, April 20 3:00-4:00pm
- Thursday, April 28 2:00-3:00pm
- Friday, May 13 10:00-11:00am
- Monday, May 23 1:00-2:00pm

ANALYTICS/PREDICTIVE MODEL

Recommended for Academic Affairs administrators, department chairs, program coordinators, advising directors, and Student Affairs leadership.

- Wednesday, April 6 4:00-5:00pm
- Wednesday, May 4 4:00-5:00pm
- Thursday, May 19 11:00am-12:00pm
- Monday, May 30 1:00-2:00pm

New User trainings will be added throughout the summer.
Keep an eye on our training website for details.
